A Message from the MD & GM

Progress Constructions has been growing in the last few years and its products and services are setting standards in the region. By providing unique services for our clients through continuous efforts and dedication to the regional market and through high quality performance, our future growth is assured.

The key to our success is to adapt new technologies, innovative designs and advanced engineering techniques. This has given us the edge over our competitors.

We have restructured our company to meet the new challenges. Thus, we are constantly upgrading our services to achieve complete satisfaction to our client's needs.

We at **Progress Constructions** seek the opportunity to serve and provide you with personalized services from upper management to field staff for the successful delivery of your project on time and within the budget. The company instills this philosophy in our employees to do the kind of work that makes our clients want us to build their next project.

Looking ahead, we are confident that **Progress Constructions** are well positioned to help our clients achieve

high performance. We navigated the past several years through an extremely challenging time and emerged better and stronger companies. It is an exciting time for us ... and we are ready to power **Progress Constructions** into the future.

We believe that future brings new optimism and an improved platform for business, giving us the confidence that we will achieve our business plan. But, as ever, we all need to remain focused and strive for the best in what we do.

We are enhancing our key internal operations to ensure a consistent and positive experience for our clients, partners, suppliers and employees.

As a Company we remain committed to corporate and social responsibility. In all of our actions we strive to ensure that all economic, environmental and social factors are considered. We believe that this approach, driven by our principles of respect, and involvement, makes us more responsible and informed as a company.

We firmly believe that our core values and code of conduct make us different and contribute to our long record of success. Our ethic of Honesty and Service is not just the right thing to do but our duty every day.

Operation Director

Eng. Wsaam Al Ani

Our Priority

1. Safety

We believe that the life and the health are great gifts from Allah, so we are thanking Allah by exerting our ultimate effort to protect that gift.

2. Local Authorities.

By respecting local authorities, we will be always right.

3. Our Image.

Progress Constructions is committed to follow the industry standards & best practices to improve and pride our name into the market.

4. Client Satisfaction.

By understanding the client's needs and our cumulative experience will serve our clients by advising them to reach higher than their targets.

5. Profit

We believe that the profit is the natural result of the commitment of the above priorities.

Our Values

Ethics

Honesty and fairness are at the heart of the company.

Exceeding Expectations

By understanding the client's needs and our cumulative experience, we transform creative thinking into reality.

Excellence

Excellence is not an act but a habit, we are trusted to set and achieve high standards.

Emphasis on Quality

*Doing it right the first time is the result of comprehensive planning, highly tuned systems and skillful execution because we believe that **“Quality remains”**.*

Our Client is our partner

Repeat client business is our goal. **Progress Constructions** commitment to our client does not end with the completion of the project. We strive through our quality control program to minimize warranty needs. However, we want to enjoy with our clients the constructions progress and to have a nice memories about how the project been done which encourage all parties to repeat the business again and again.

Through built-in monitoring and implementation procedures, **Progress Constructions** is committed to deliver a quality construction project and final product.

The procedures begin during the pre-construction phase with in-house plan reviews, budgeting and value engineering services, and subcontractor selection.

After construction has commenced, quality is achieved through a series of pre-construction conferences for coordinating the various phases of work, monitoring shop

drawings and submittals for adherence to plans and specifications, maintaining a clean and safe project site and employing qualified and competent field supervision.

The Quality Control procedures mesh together through a concentrated effort of teamwork involving **Progress Constructions** Estimators, Project Managers, Safety Director and Field Staff to deliver the Client a successful project.

Company Profile

Progress Constructions is committed to surpassing the expectations of our clients, subcontractors and suppliers; by surpass expectations performance through integrity, professionalism, and service which yields the highest quality construction projects.

Progress Constructions team is made up of over-achievers who see to it that our customers receive the very best.

Progress Constructions believe that quality individuals producing quality projects. Excellence is our goal as well as our obligation to our clients. From pre-construction services through project completion, **Progress Constructions** is committed to exceeding our clients' expectations.

Progress Constructions works closely with the Architect and Engineers to ensure a quality project through the preparation of detailed and comprehensive project budgets and construction schedules.

Plan reviews done in cooperation with the Client and the Architect insures the construction documents will yield better Subcontractor pricing and minimize change order expense during the project. With our experience, we have a thorough understanding of the special needs of our clients for accuracy in planning, budgeting, and scheduling of the construction project.

Progress Constructions works to maintain its reputation as a top general contractor. Our experience pride is built on fulfilling our client's needs.

As a full-service construction provider, we work closely with the project team from project conception to project completion.

We can look back with a great deal of satisfaction at what **Progress Constructions** has achieved, to check out our strengths and build on them for the exciting journey that lies ahead. These words aptly encapsulate our success—quality, occupational health & safety, service, efficiency and commitment.

Progress Constructions LLC, in its pursuit for excellence, has earned the coveted reputation as 'the most innovative' Progress Constructions will be there - shaping your dream into reality.

Progress Constructions Policy Statement

Being a reliable general contractor for any industrial, commercial or residential construction projects, **Progress Constructions** is committed to ensure quality, cost saving and bring excellence in all its operations right from project inception to end whilst taking all practicable steps to safeguard the health, safety and welfare of all employees ill health, property damage and to conserve clients

And others affected by our operation to prevent accidents, resources.

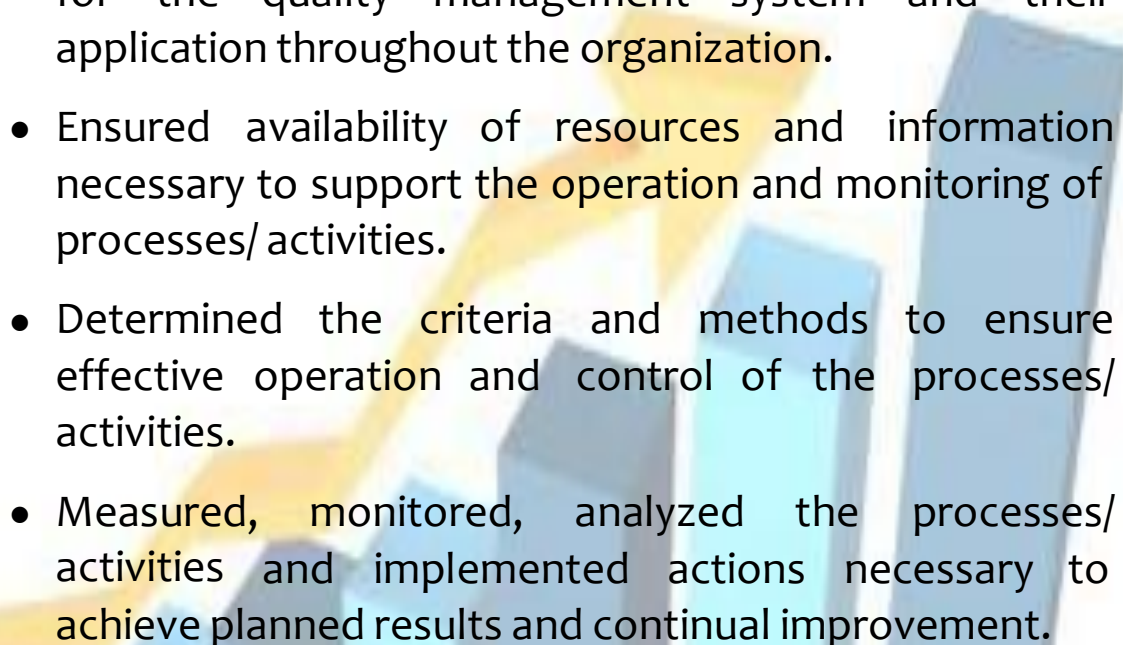

Progress Constructions is committed to follow the industry standards & best practices in its operations and reduce its impact upon the environment. This commitment extends to the continued compliance with current and future legislation.

To comply with the standards requirements, the organization **Progress Constructions** shall maintain close cooperation with our clients, subcontractors, suppliers and other persons transacted with.

In order to achieve our objectives **Progress Constructions** has established, documented, implemented & maintained an Integrated Management System and continually improve

its effectiveness in accordance with the requirements of the standard.

To comply with the standards requirements, the organization:

- Identified and managed processes/ activities necessary for the quality management system and their application throughout the organization.
 - Ensured availability of resources and information necessary to support the operation and monitoring of processes/ activities.
 - Determined the criteria and methods to ensure effective operation and control of the processes/ activities.
 - Measured, monitored, analyzed the processes/ activities and implemented actions necessary to achieve planned results and continual improvement.
- 

Safety Plan

Progress Constructions Company is committed to ensure a safe and healthy work environment for all its employee and visitors.

At Progress Constructions, safety is a primary concern. Our full-time Safety Director visits each individual project site, performs regular staff training and networks with others to insure safe working conditions are being maintained. Weekly safety meetings are held on each project site between the **Progress Constructions** site staff and subcontractors to stress the importance of jobsite safety and to keep safety in the minds of each individual working on the site. At **Progress Constructions** we are always improving.

Progress Constructions Company is committed to preventing illness and injuries at the work place providing a safe and healthy working environment for all its employees.

Progress Constructions Company considers their employees to be their greatest asset and to assist in their protection will provide occupational rehabilitation for any employee who sustains an injury at work.

Rehabilitation will commence as soon as injury or illness occurs, which make it imperative that all incidents are reported immediately.

The company will provide suitable duties, where available, which may be outside the employee's usual job classification.

The provision of suitable duties for employees having sustained and injury or illness outside work will be subject to assessment by the company management.

A written return to work program consistent with medical advice will be forwarded and the rehabilitation coordinator will be the necessary link between the work place and treating practitioners.

To achieve this *Progress Constructions* company will:

- Ensure all levels of management and employees understand and accept their health and safety responsibilities and are accountable for those matters within their control.
- Take into consideration health and safety in all stages of planning, design and construction to incorporate system to eliminate or control hazards.
- Commit sufficient resources for effective implementation of safety management system in all areas of operation.
- Ensure all personal competent and suitably skilled to undertake the duties for which they are employed in a safe and productive manner.
- Promptly report and investigate all accidents, incidents and hazardous condition and apply appropriate corrective action.
- Collective support and participate the promotion of active safety management system and strive for continual improvement through audit and evaluation programmed.
- Provide an effective system of rehabilitation of injured employees.
- Ensure that specific health and safety requirement of clients are acknowledged and implemented.
- Management accepts responsibility for the effective implementation of this policy and will provide systems, training supervision and support to ensure a safe work environment.

In the event of injury the following steps will be implemented:

- Any injury report has to be submitted by the employee to the rehabilitation coordinator, if the injury resulted during working time.
- The injured worker has to be contacted by the rehabilitation coordinator, if the injury resulted in time away from work.
- If the injury beyond the scope of first-aid, the employee has to be sent to the medical practitioner of his choice.
- The coordinator has to maintain contact with the medical practitioner.
- The coordinator will ensure the appropriate documentation is completed within the stipulated time.
- The insurer will be notified should the coordinator process a claim.

SPECIFIC SAFETY TRAINING

Training will be provided for the following:

- Use and care of personal protective equipment.
- Safe and working heights.
- Scaffolding and handrails.
- Use of ladders.
- Manual handling procedures.
- Application of basic life preserving first aid.
